

## Weekly Update

*April 28, 2015*

**Subject:** SCEIS Training Initiatives

**Audience:** Weekly Update Distribution List

Over the last two years the SCEIS Training Team has been proactive in developing and announcing the training calendar to provide users with more advance planning. The Team has also launched a variety of online classes to address on-demand training needs. Other key milestones include updates to class presentations, enhanced uPerform materials and upgrades to uPerform and Blackboard.

In the coming fiscal year we anticipate additional initiatives that will benefit users in a variety of ways. Users are encouraged to contact us at [training.sceis@sceis.sc.gov](mailto:training.sceis@sceis.sc.gov) to report recommendations to improve SCEIS Training. We are currently searching for a Training Lead who will be instrumental in managing the strategic direction for this area.
