

Subject: Register Now for SCEIS Central Training Webinars
Audience: All SCEIS Users

MySCEmployee will be replaced by SCEIS Central this fall. The SCEIS Training Team will be conducting three training webinars in August previewing important functions in SCEIS Central. Each 30-minute training webinar will walk users step-by-step through a specific function.

There is a limited number of telephone lines for each webinar. When possible, please coordinate with others in your agency to reserve a conference room with a speaker phone so multiple employees can attend the webinar using only one telephone line. When registering, please indicate whether you are the only participant or if you are registering for a group. Group callers will be asked how many employees are taking part.
