

Subject: BW Queries in ECC – Finance Data Dictionary now available

Audience: Finance reporting users

The SCEIS Team is pleased to announce the availability of the Finance Data Dictionary for BW queries that are in ECC. This tool is designed to assist reporting users who need to determine which reports are offered, the data associated with each finance report and other report features.

Each non-grant finance report listed in the data dictionary includes the:

- Technical Name
- Description
- Role
- Selection Criteria
- Rows
- Free Characteristics
- Results Column

The data dictionary also includes a table of contents for a quick reference to the list of reports in alphabetical order and the page number for each report, as well as a glossary of field definitions. Click [here](#) to begin using this reference tool.

Similar documents are being developed for BW queries in ECC for Grants and Materials Management and will be announced when they are available.

If you have questions, please Contact the SCEIS Help Desk (803-896-0001 and **select option 2** for SCEIS issues or visit <http://sceis.sc.gov/requests>).

Thank you,
The SCEIS Team
