

**Subject:** Enhancement to ME55 (Collective Release of Purchase Requisitions) screen

**Audience:** Inventory Agencies utilizing Enterprise Central Component (ECC)

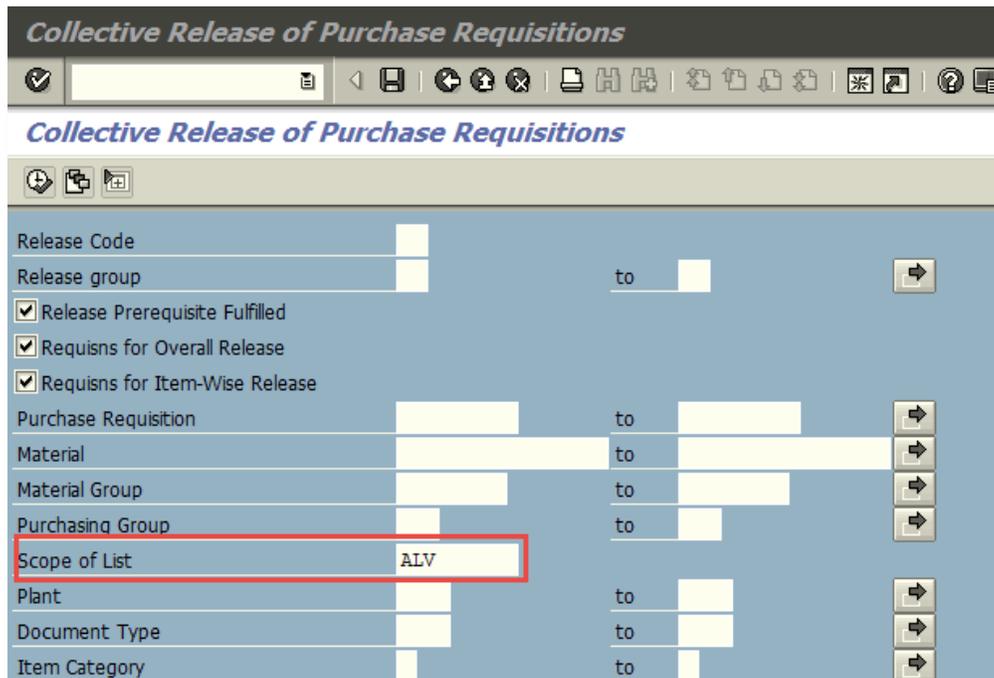

The SCEIS team is pleased to announce a new enhancement to the Collective Release of Purchase Requisitions.

The transaction code ME55 will now display ALV by default in the Scope of List. The change in the Scope of List field from F to ALV is a result of a system upgrade to align with SAP Standard programming. The ME55 transaction code will now allow for multiple purchase requisitions to be approved/released at once.

**Please note:** The ME55 transaction code will NOT work if the Scope of List field is F.

This enhancement should be used when a purchase requisition is created and needs approval. The approver should utilize the ME55 transaction to approve/release the line items of the purchase requisition that are above the threshold.

The following screen shot provides an illustration of this new enhancement.

If you have questions, please contact the SCEIS Help Desk (803-896-0001 and **select option 2** for SCEIS issues or visit <http://sceis.sc.gov/requests>).

Thank you,  
The SCEIS Team
