

Subject: Hurricane Ian Internal Order

Audience: Finance Directors

Earlier today, Wednesday, Sept. 28, 2022, the Comptroller General's Office distributed an email message to finance directors stating:

"The Governor has issued Executive Order No. 2022-28 declaring a state of emergency for South Carolina in response to Hurricane Ian and the potential threat it poses to the state. The executive order enables all state agencies to coordinate resources and sets into effect the State Emergency Operations Plan.

In order to collect the costs associated with this event, a statewide disaster internal order # has been created in SCEIS: **98000022 – 2022 HURRICANE IAN**. Any state agencies incurring expenses related to this event should begin using this internal order # to start tracking costs."

If you have questions, please contact Kathy Johnson (803-734-2608 or kjohnson@cg.sc.gov) in the Comptroller General's Office.

Thank you,
The SCEIS Team
