Subject: New MySCLearning Integrated Learning Experience

Good afternoon,

SAP has introduced a new Integrated Learning Experience (ILX) for SuccessFactors. The new ILX includes a new Learning homepage to access training content housed in SCEIS. The new ILX will be available by Nov. 18, 2024, following SAP's scheduled 2024 SuccessFactors Learning module update.

As the state transitions to the new ILX, the legacy learning experience will still be available, allowing users access to the functionality they are familiar with, as needed, while becoming familiar with the design. Users can alternate between the old and new version until mid-2025.

For instructions, please refer to the [MySCLearning Integrated Learning Experience \(ILX\) Quick Reference Guide](#).

If you have questions, contact the SCEIS Help Desk at 803-896-0001 and **select option 2** for SCEIS issues or visit <https://sceis.sc.gov/requests>.

Thank you,
The SCEIS Team
