

To ensure that you have the most current training materials in MySCLearning, it's a good practice to clear Internet Explorer's cache *before* logging in to MySCLearning to download class materials.

1 Open Internet Explorer

2 Access the Delete Browsing History dialogue box

Click *Safety*, then *Delete browsing history*

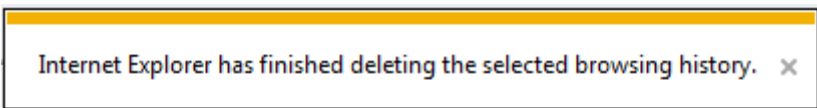

3 Clear the browsing history

Ensure that these options are all checked for deletion:

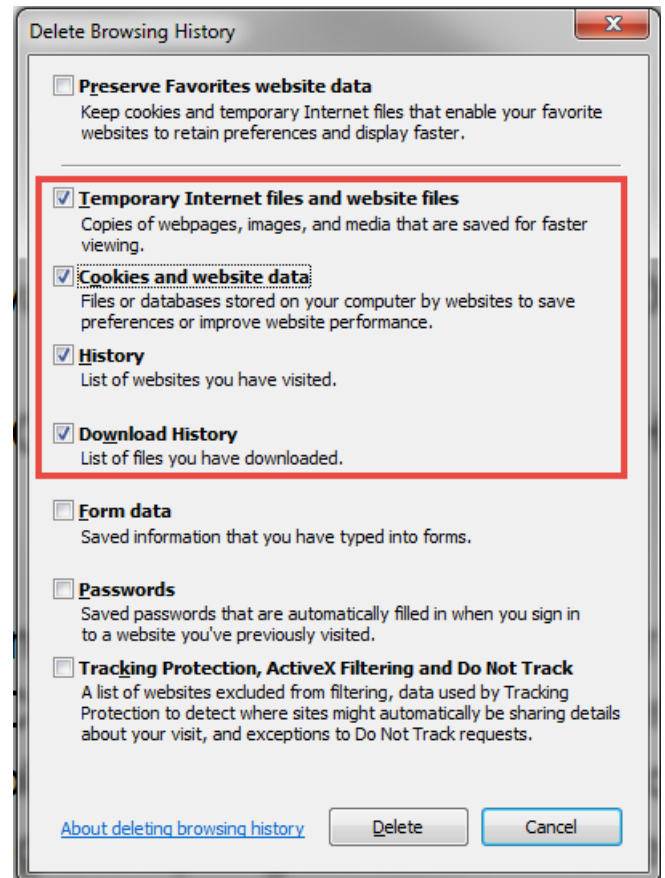

- ✓ "Temporary internet files and websites"
- ✓ "Cookies and website data"
- ✓ "History"
- ✓ "Download History"
- ✓ You may select other options as well.

Click *Delete*.

Wait until you see "Internet Explorer has finished deleting the selected browsing history."

Close and re-open Internet Explorer.

4 Log in to MySCLearning as usual

See "Log in to MySCLearning."
