

Goods Receipts ECC/SRM Guide to Hard Stop and Common Errors

Error or Issue	Resolution
<p> Document 46XXXXXXXX does not contain any selectable items</p>	<p>Problem: The message "Document 46XXXXXXXX does not contain any selectable items" is correct. A Goods Receipt is being attempted to be processed against a Line Item which already has a GR processed.</p> <p>Solution: Verify the PO's Line Item. Look in SRM's PO History or look in SRM's ME23N tab, or look in ECC's ME23N's PO History. A GR cannot be processed because there are no selectable items remaining on the PO Line Item.</p>
