

**Subject:** Grants Management Users Now Have Access to Two New Transactions:  
GMDERIVE and ZGMDERIVER

**Audience:** Finance Directors, Users with the GM Agency Administrator and GM  
Agency Program Manager Roles in SCEIS

The SCEIS Team is pleased to announce a new system enhancement for Grants Management (GM) users with the GM Agency Administrator and GM Agency Program Manager roles in SCEIS ECC. These users now have access to two new transactions: GMDERIVE and ZGMDERIVER. This enhancement resulted from a Request for Change approved by the [SCEIS Change Advisory Board](#) on January 17, 2013.

These transactions allow GM users to view the derivations that control postings to Sponsored Class and Sponsored Program. In the past, when agencies received errors that occur when transactions do not derive anticipated Sponsored Class and Sponsored Program, they had no mechanism to identify the cause. With the use of these new transactions, Agency GM users will be able prevent or quickly determine the cause of GM Sponsored Class and Sponsored Program errors.

Instructions for running the GMDERIVE and ZGMDERIVER transactions are posted on the [SCEIS Weekly Updates page](#) in conjunction with this message. [Click here](#) to view them now.
