

1. Enter transaction code CJI3.
2. Click on "Status", which is boxed in red in the screen shot below.

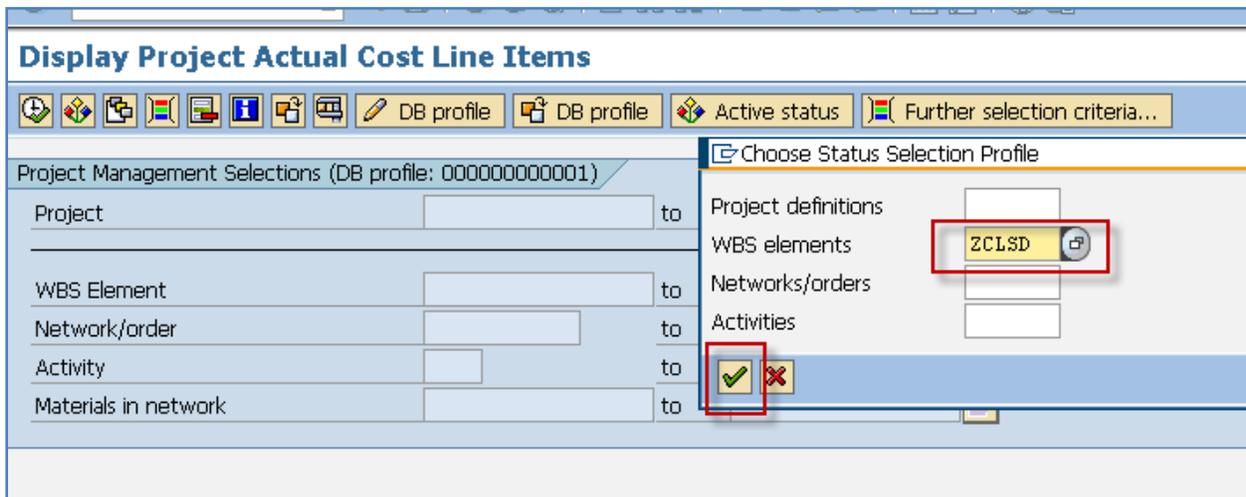

3. From the list of options, select the WBS and click on the possible options.

4. Scroll all the way down on the pop up screen; you will see two statuses ZCLSD & ZSCEIS, which are boxed in red in the screen shot below.
 - a. Selecting ZCLSD will run the report for only closed or locked third level WBSs.
 - b. Selecting ZSCEIS will run the report for all third level WBS that have status REL, and not closed/locked.

The screen shot below displays an example of selection of ZCLSD. Once ZCLSD is selected, click on the check mark below as shown.

The "Status" icon will change to "Active status" when your selections are added.

Upon execution, the system will only display WBS that have the system status CLSD or User status LOCK.
