

Instructions for Installing Adobe Flash Player

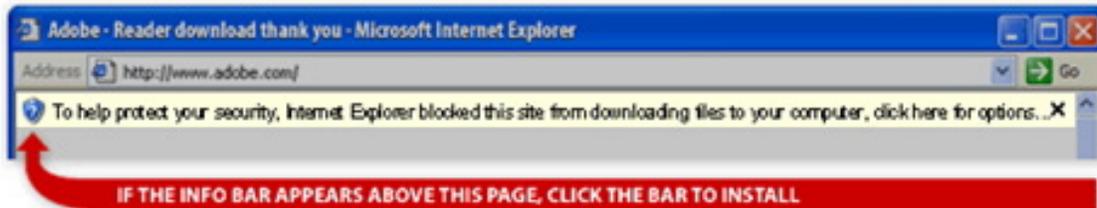

Because many SCEIS training courses are Flash driven you should ensure you have Adobe Flash Player loaded on your computer. If you do not have an Adobe Flash Player, you can download it for free by following these steps:

Step 1 – In your web browser type <http://get.adobe.com/flashplayer>

Step 2 – Click “Agree and install now”

Note: Depending on your security settings and the browser you are using, you may see a yellow warning box at the top of your browser. To download the software, click the thin yellow box. Also, if you do not want the Free Google Toolbar added to your browser, uncheck the appropriate box.

Step 3 – Click “Close Download Manager” box
