

Subject: SCEIS Reporting User Group Training Survey Extended Through Friday, August 17

Audience: All SCEIS Business Warehouse and Business Objects Reporting Users

In the July 30, 2012 Weekly Update, we distributed a survey for the SCEIS Reporting User Group (RUG), requesting information on agency Business Warehouse (BW) and Business Objects (BO) training needs. Reporting users from several agencies have responded to the survey, but many agencies have not yet provided a response. To ensure all agencies have an opportunity to respond to the survey, which is linked below, **we have extended the survey through this Friday, August 17.**

We encourage you to complete this RUG survey before 5:00 p.m. on Friday if you have not done so already. Once responses have been collected and compiled, the SCEIS User Group Leads will report on their findings at upcoming SCEIS User Group and RUG meetings, and begin to schedule training workshops accordingly.

To share your feedback, please take a few minutes to complete the survey at the link below. Please also share this survey with any other SCEIS reporting users in your agency who you would like provide input on training needs.

Click the following link to view and complete the survey:
