

Sales & Distribution ECC Guide to Hard Stop and Common Errors

Error or Issue	Resolution
Create an Outbound Delivery using VL10H	<p>Problem: The user is picking a partial order and is entering the partially picked quantity under the picking tab. Once the user attempts to post the goods issue, a hard stop results.</p> <p>Solution: The user enters the partial quantity under the picking tab and must change the delivery quantity under the delivery tab to match. Once posted, a delivery document will be generated and an invoice can be created.</p>
