

# View a Recommended Course or Collection

If someone “recommends” a course or collection to you, it is listed in your *Recommendations* tile. You may accept a recommendation or recommend a resource to another user.

**TIP** → A required course goes directly to My Learning Assignments, not to Recommendations.

## 1 Log in to MySCLearning

See “Log in to MySCLearning.”

## 2 Expand the *Recommendations* tile

Click the upper-right corner to expand the tile.

**TIP** → The number in a red circle shows how many courses or collections have been recommended to you.

## 3 View a recommended course or collection

Click the three-dots icon beside a course or collection.

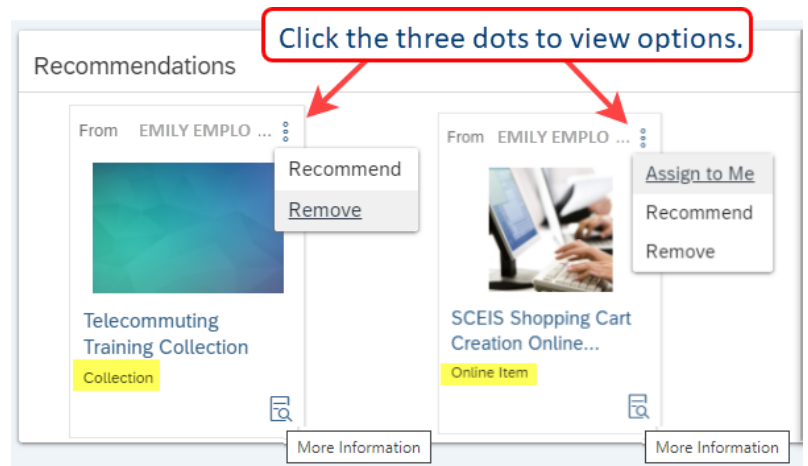

- *Recommend* lets you recommend the resource to another user.
- *Remove* dismisses it from your Recommendations tile.

For a **collection**,

- Click the *title* to open the **collection**.

For a **course**,

- *Assign to Me* adds a **course** to your My Learning Assignments tile.

**TIP** → You only get one chance to view a new Recommendation. After that, it no longer displays in your Recommendations tile. But you can always find courses and collections with the Find Learning tile. To learn more, see “Find a Course or Collection” and “Use a Collection.”
