SRM Guide to Hard Stop and Common Errors

Error or Issue	Resolution
⚠ Back-End Error: Cannot post to year 20XX which is before current year 20YY of doc. item 46..xxxxx/xxxx	**Problem:** The user is attempting to key-in an FM Posting Date which is prior to the current year. **Solution:** Place the Purchase Order (PO) in Edit Mode and change the FM Posting Date to the current calendar date. Do not key-in an FM Posting Date that is greater than the current calendar date.
